

Risk Management Policy

Cygnus Metals Limited (ACN 609 094 653)

Adopted by the Board with effect on 17 May 2024

Risk management is a complex and critical component of Cygnus Metals Limited's (**Company**) governance, and the Board will oversee and guide the detail of risk management. The Executive Chairman is charged with implementing appropriate risk systems within the Company. Aspects of this process may be delegated. Risk management is considered a key governance and management process. It is not an exercise merely to ensure regulatory compliance. Therefore, the primary objectives of the risk management system at the Company are to ensure:

- (a) all major sources of potential opportunity for and harm to the Company (both existing and potential) are identified, analysed and treated appropriately;
- (b) business decisions throughout the Company appropriately balance the risk and reward trade off;
- (c) regulatory compliance and integrity in reporting are achieved; and
- (d) senior management, the Board and investors understand the risk profile of the Company.

In line with these objectives, the Company's risk management system covers:

- (a) operations risk;
- (b) financial reporting; and
- (c) compliance.

The Board reviews all major strategies and transactions and corporate actions for their impact on the risk facing the Company and makes appropriate recommendations. The Company also undertakes a review of operations to update its risk profile at least annually. This normally occurs in conjunction with the strategic planning process. The Company discloses in each reporting period that such a review has taken place. The Board undertakes an annual review of those areas of risk identified.

In addition, as specified by Recommendation 4.2 of the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations, the Executive Chairman and Chief Financial Officer conduct a review and provide a written declaration of assurance that, in their opinion, the financial records of the Company for any financial period have been properly maintained, comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the Company and, have been formed on the basis of a sound system of risk management and internal control which is operating effectively.

The Board of the Company has identified a range of specific risks that have the potential to have an adverse impact on its business.

These include:

- (a) exploration risks;
- (b) environmental risks;
- (c) insurance risk;
- (d) contract risks;
- (e) cyber-security risks;
- (f) people risks;
- (g) sustainability and climate change risks;
- (h) funding and finance risks; and
- (i) compliance and regulatory environment risk.
